

Maritime Satellite Solutions

Company profile

M4SAT: an independent company who provides Maritime VSAT services through partnerships with several high-end Service providers and Satellite operators.

Headquartered in the Netherlands – Presence in United Arab Emirates, Cyprus & Singapore.

Through our unique approach we are able to offer a solution fitting exactly your needs; rather than trying to fit your needs into the available options of a limited portfolio.

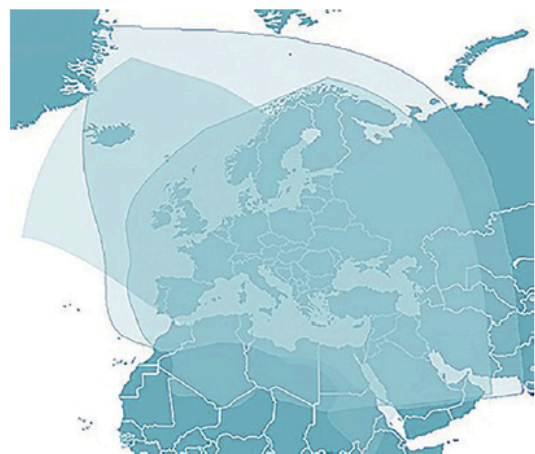

Ku-band Maritime Managed Services

The Ku-band service offers the widest global coverage which includes 98% of all shipping routes. By having regional as well as global possibilities, this flexible service ensures a high quality connection in any situation.

- ✓ Guaranteed CIR with burstable MIR
- ✓ Bandwidth profiles
 - Up to 4/1 Mbps as standard service for Global
 - Up to 8/2 Mbps as standard service for Regional
 - Higher profiles available on case-by-case basis
- ✓ Unlimited service → no volume restrictions
- ✓ Upgrades possible
- ✓ Regional suitable for a 60-centimeter, 80-centimeter and 1-meter antenna
- ✓ Globally suitable for an 80-centimeter and 1-meter antenna
- ✓ Fixed monthly rate

▶ Global Coverage

▶ Regional Coverage (Europe)

Ka-band Maritime Managed Services

The Ka-band service offers a large variety of service profiles with dedicated CIR bandwidth and burstable MIR to ensure optimum operating conditions for business critical applications.

Speed

A speed-based service profile is ideal for users requiring a high quality connection and fixed monthly service charges.

- ✓ Guaranteed CIR with burstable MIR
- ✓ Up to 24/6 Mbps with 1-meter antenna
- ✓ Up to 20/3 Mbps with 60-centimeter antenna
- ✓ Fixed monthly rate

Quota

Quota is optimal for both entry level users requiring a low monthly service charge and sporadic users requiring high-speeds and predictable costs.

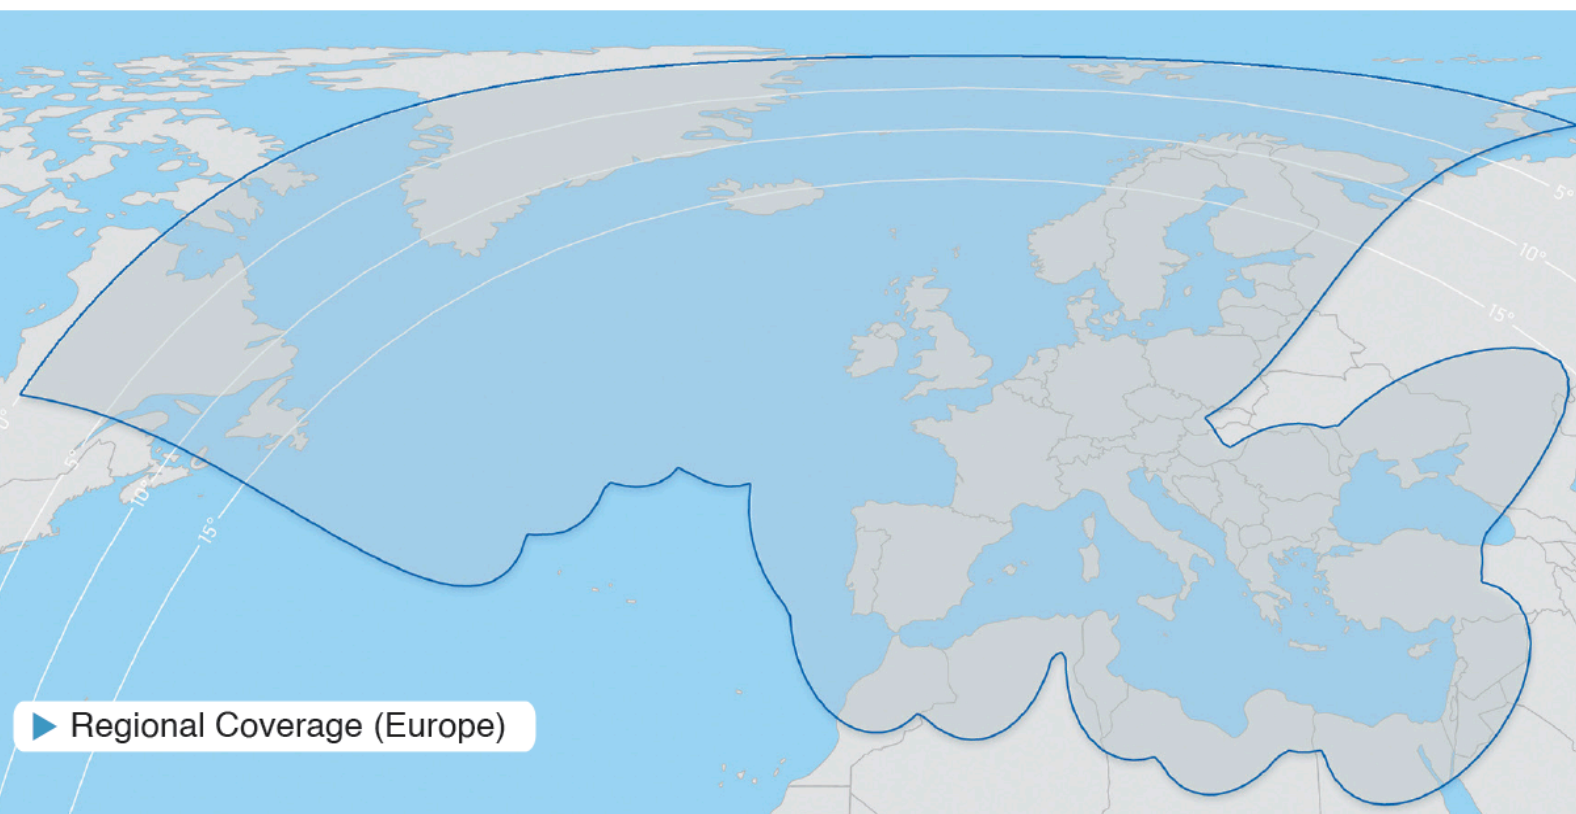

- ✓ Volume plans; from 5 to 200 GB
- ✓ Top-up packages available
- ✓ Notification sent by e-mail when 50% & 90% of quote limit is reached

Custom

Custom provides full flexibility, and the possibility to create a profile suitable to meet any requirement.

- ✓ Custom rate-based service profiles
- ✓ Symmetric & asymmetric profiles
- ✓ Fixed monthly rate

▶ Regional Coverage (Europe)

WiFi Solutions
Cyber Security solutions
Optional Media services

Why choose M4SAT?

Customer oriented: instead of pushing customers with services they can have, M4SAT provides customers with what they need.

Independent: working as an agnostic company, a true tailor-made solution is created.

Multi-technology solutions: integrating and managing combined 3G/4G, C-, Ku-, Ka-, & L-band services in one hybrid network solution.

Unique portfolio: providing multi-technology network services up to date with the latest innovative developments.

Flexibility: providing uncommon contract terms and upgradable bandwidth plans, creates the opportunity to comply with the dynamic maritime market.
